+

\$500-\$850 Additional Photographer Rates / \$200-\$350 Makeup Artist

Both the bride and groom will be photographed getting ready - all cameras are time synchronized to the second
fantastic for the ceremony to get reactions of the Bride and Groom and guests
more informal and candid shots will be captured during the wedding day
you get two experienced professional photographers, I do not employ any students or 'learning' assistants
both photographers carry similar equipment and usually have a similar amount of experience

Printing and Wedding Albums

Printing costs very little compared to the days of old. I can handle it if you require, or Print ready files are provided to use at a print vendor of your choice. I have chosen to separate the cost of the photographic work and the cost of printing and albums. I do this because some couples opt to do all their own printing and make their own albums. Pricing my service this way enables me to be absolutely transparent with my cost, ensuring you have no escalating or hidden costs after your special day. If you require an album, this can be discussed at the pre-wedding consultation.
